##### Therapeutics

- [Federal Therapeutics Supply](#)
  - The Bebtelovimab supply is getting low. The potential for further procurement of Bebtelovimab is limited to additional congressional funding, however, the United States Government (USG) is working on a short-term bridge solution. To note, this does not mean the product will no longer be available, simply, it will just not be procured and provided by the USG.
  - Regarding the question of commercialization, a Lilly representative stated that Lilly still believes that their supply agreements with the USG provide the most equitable distribution for their product. For Evusheld, based on uptake, the USG has several more months of distribution left.
  - For oral antivirals there is no supply constraint. The USG made significant purchases and there is no dwindling of supply in the short term. Additionally, the oral antivirals have a longevity that can render some of

the monoclonal antibodies (mAbs) ineffective and are seen by the USG as “our go to products”.

- The USG has purchased just over 10 million treatment courses of Paxlovid, with approximately 3.6 million distributed. Additional procurement is expected, and any such updates will be made as they become available.

### The Health Partner Ordering Portal (HPOP)

- For the new reporting cadence in HPOP, providers are still allowed to report on other days besides Monday and Thursday. For instance, they can report daily still. Monday or Thursday are the requested dates. However, whatever dates providers pick, they should enter the number administered since the last reporting (i.e., not the cumulative amount administered).

### Test-to-Treat (T2T)

- As noted previously, the Test-to-Treat Playbook has been published and is now on the CDPH website: [COVID-19 Test-to-Treat Playbook \(ca.gov\)](#).
- All 146 of Optum Serve's T2T sites have received therapeutics and are operational. The sites can be located through the [Test To Treat – ASPR locator](#).

### New Meetings

- CDPH began facilitating weekly Local Health Department Therapeutic Update Webinars on Tuesday, June 21, 2022 at 11:00 am PST, with the intention to include subject matter experts with various backgrounds such as clinical knowledge, logistics, etc. to help guide discussions with local health officers.
- CDPH held a webinar on Friday, June 24, 2022 at 9:30 am PST to show users how to access and interpret Therapeutics utilization, shipping, and ordering data in Snowflake.
- Both webinars had good attendance and participation.

### MHCC

- Received a total of 48,059 (+1,364) resource requests and a total of 46,695 (-394) inquiries from public citizens, LHJs, and healthcare facilities. The number of inquiries listed is a total of the Maximus Call Center and MHCC inquiry counts combined.

### Surge Team

- As of June 28, 2022, the confirmed COVID hospitalization census is 3,405 (+543).
- Statewide Intensive Care Unit (ICU) availability is 32.6%.
- COVID related Emergency Department visits and new COVID positive admissions have remained relatively stable.
  - New weekly admissions are at 12.2/100,000 statewide, and 6.6% of hospitalized patients are COVID positive.
  - Pediatric hospitalizations in children over 5 years old have increased since April 2022.
- The percent of COVID positive patients in the ICU remains below 5% state-wide.
  - ICU Bed availability remains high in all regions.
  - The percent of pediatric ICU patients that are COVID positive is increasing but remains below 5%.
- The percent of all admissions that are age 0-17 remains below 4%.

### Long Term Care Facilities Team

- [Summary for June 22-28, 2022](#)

# Situation Report - FOUO

## Coronavirus Disease 2019 (COVID-19)

**Report Date:**

**6/29/2022**

**Report Time:**

**1630**

- 3,211 new cases (1,567 residents, 1,644 staff) reported in State licensed or operated residential facilities in the last 7 days. The 7 Day average for new cases has increased from 425 to 429 (1%) in the last week.

### State Facilities

- CHCQ received 3 facility Program Flex requests.
- CHCQ received 0 Salesforce requests.
- CHCQ continues to hold the All Provider, Local Health Department, and Infection Control calls each week.

### Statewide Epidemiology Trends

Case Average & Rate		
	7-Day	14-Day
Case Average by Report Date	16,175 (-2,514)	14,918 (-199)
Case Average by Episode Date (w/ 7-day lag)	13,847 (-533)	14,314 (-1,328)
Case Rate per 100k (w/ 7-day lag)	34.5 (-1.3)	35.7 (-3.3)

### Omicron Variant Update

- Case rates and case average by episode date remain relatively stable.
- Current case rate is 34.5/100,000 (down 13% from 35.8/100,000 a week ago). This is about seven times the rate during the most recent nadir of 5.3 around March 20-23, 2022.
- 7-day average cases by episode date is 13,847.
- The incidence rate of reinfections reported among new confirmed cases has recently decreased. There were 10,771 cases of reinfection reported through the week ending June 11, 2022, down from 12,684 reported the week before.
- Deaths are low and stable but there is a lag of about 4 weeks.
- R-effective is around 1.06.

### Vaccine Task Force

#### School Readiness

- o Digital COVID-19 Vaccine Record (DVCR) Data: Since launch on June 18, 2021, the DVCR, <https://myvaccinerecord.cdph.ca.gov/>, tool has delivered 16.65 (+.11) million QR codes to 8.15 (+.04) million recipients with a current weekly match rate of 89%. Any DVCR issues can be remediated through a Virtual Assistant Tool, <https://chat.myturn.ca.gov/?id=17> which includes identity verification through ID.me. To date, nearly 873,000 (+2,000) remediation requests have been processed. Most issues relate to missing doses or incorrect/missing contact information. 99% of all remediation requests are resolved within five days.
- o Vaccine Insights Report from June 6, 2022 – June 12, 2022.
- o California administered 276,993 (+4,493) total doses.
  - This is an -5.5% decrease from the previous week and -25.5% decrease from two weeks ago.
- o California administered 25,817 (+3,386) new first doses.
  - This is a 4.9% increase from the previous week.
- o California administered 35,851 (+181) total pediatric doses.
  - This is a 0.2% increase from the previous week.

### Statewide Vaccine Efforts

Statewide Vaccine Efforts	
Administered	77,484,870
Average doses per day	34,203
People fully vaccinated	28,503,031
People partially vaccinated	3,115,691
Booster doses Administered	16,056,773
Doses on hand	3,191,882
Delivered	92,178,365
CDC Long Term Care Facility Pharmacy Partnership	
Delivered	38,730,030
